

THE PROVEN EMS INTEGRATION PLATFORM

LESS TIME
DOCUMENTING
AND MORE TIME

SAVING LIVES

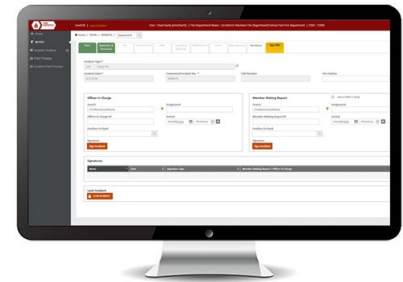

CLOUD- BASED FIRE RECORDS MANAGEMENT SOLUTION

- ▶ **Single log-in** and identical user credentials
- ▶ **Easy-to-use** with page by page validations
- ▶ **Save time** with NFIRS reporting
- ▶ **24/7/365** access to data
- ▶ **Subscription-based** solution
- ▶ **Integrated** with emsCharts ePCR

THE PROVEN EMS INTEGRATION PLATFORM

With emsCharts Fire Reports, both EMS and Fire Reporting are now contained within the same application. Tightly integrated with the emsCharts ePCR software, Fire Reports meets nationwide NFIRS fire reporting standards through a simple, easy-to-use interface. This allows you to greatly decrease the time your crew must spend on reporting, while also increasing the accuracy of the data submitted to fire reporting agencies.

FEATURES AND SYSTEM REQUIREMENTS

STANDARD FEATURES

- ▶ Import data from most systems – including Firehouse
- ▶ Shared database – one stop shop for reporting
- ▶ Unlimited custom reports
- ▶ Cloud based – 24/7 availability
- ▶ Access from any web-connected device with any browser

NFIRS

- ▶ Reduced documentation time with typeahead lookups
- ▶ Google address integration, and duty roster integration
- ▶ CAD integration available
- ▶ Collect high quality data with custom data validation rules
- ▶ Optional QA process available and customizable by incident type
- ▶ Unlimited plus-one codes for all code fields

OCCUPANCY

- ▶ Pre-plan codes with history and verification process
- ▶ Record physical information for buildings
- ▶ Track and import contact information
- ▶ Link hydrants to buildings
- ▶ Permits
- ▶ Track storage tanks
- ▶ Chemical inventory with NFPA 704 designations

INSPECTIONS

- ▶ Utilize any code list or even multiple code lists
- ▶ Simple yes / no checklists
- ▶ Automatic calendar reminders
- ▶ Assign inspections to a whole shift, unit, station, or individual
- ▶ Customizable inspection forms emailed directly from the software
- ▶ Track history
- ▶ Coming Soon: Built-in Invoicing

LOSAP

- ▶ Length of Service Award Program (a.k.a. PA Act 172)
- ▶ Track personnel participation in department activities
- ▶ Assign points or hourly credit
- ▶ Unlimited, customizable categories
- ▶ Set minimum and maximum thresholds
- ▶ Grant incident credit while personnel are attending classes

NFORS

- ▶ Track personnel exposure to carcinogenic materials
- ▶ Valuable for cancer-presumption states
- ▶ Establish documentation for personnel health
- ▶ Document needle sticks, exposure to chemicals, and contact with bloodborne pathogens
- ▶ Optionally require reports – automatically email personnel

INVESTIGATIONS

- ▶ Document investigation activity
- ▶ Upload photos
- ▶ Link to NFIRS incidents
- ▶ Track chain of custody for evidence items
- ▶ Report on juvenile firesetters for grant writing

HYDRANTS

- ▶ Suitable for draft sites, dry hydrants, or standard hydrants
- ▶ NFPA 294 color codes for flow rate
- ▶ Google Maps Integration
- ▶ Import hydrant data
- ▶ GPS mapping of hydrants
- ▶ Mark hydrants out of service
