emsCharts is Approved to Submit NEMSIS 3.3.4 Data in North Carolina

emsCharts is officially connected to submit NEMSIS 3 data in North Carolina

March 9, 2018 - Pittsburgh, PA – emsCharts, a leader in Electronic Patient Care Records (ePCR) and Fire Reporting for public safety professionals, is officially approved to submit NEMSIS 3 data to the State of North Carolina. For clarity, the EMS Performance Improvement Center in North Carolina has stated:

“emsCharts is approved to begin submitting live version 3.3.4 data to the state of North Carolina.”

A subsidiary of Golden Hour, emsCharts has over ten years of experience in NEMSIS compliance and reporting. As a national leader with thousands of Customers, emsCharts currently sends NEMSIS 3 data to many states today, including exporting multiple NEMSIS versions simultaneously (v2.2, v3.3.4, and v3.4) from a single emsCharts record.

“We are leaders in NEMSIS reporting throughout the country and are pleased to add North Carolina to our growing list of approved States for NEMSIS 3 reporting,” said Pete Goutmann, President & CTO of emsCharts. “We currently have over 150 services in the State of North Carolina using emsCharts. We are experts in regulatory compliance and systems integration, and continually enhance our product offerings in support of thousands of satisfied customers who utilize the emsCharts service.”

About emsCharts / Golden Hour

Golden Hour is a leader in providing advanced EMS technology platforms for Clinical Charting, Information Exchange, and Revenue Cycle. The proven EMS integration platforms include emsCharts, a leading clinical charting solution, emsHIE, a leading agnostic information exchange, and emsRCM, a leading Revenue Cycle Management platform. Golden Hour is also the leading billing and reimbursement provider within the air medical transportation industry. While utilizing these integrated technology platforms, Golden Hour has compliantly billed and collected billions of dollars on behalf of both air and ground medical transport programs. Golden Hour and emsCharts support over 75% of the air medical industry, and over 15% of the ground EMS transport industry, with its patient care documentation services.
